March 12, 2020

Adobe CoDiva – International Women’s Day Hackathon 2020

(a Hackathon centered around Women Empowerment and Equality, especially Women Security in India.)

At Adobe, they believe great ideas come from everywhere and diverse perspectives move the world forward. Do you want to play a part in shaping the future of digital experiences? Get ready to unleash your passion and stretch your potential.

Rules

- The contest is open to all women engineers for participation but only Indian Women engineers based in Indian Universities are eligible for a prize.
- This is a 2 Hour contest on Algorithmic Programming Languages.
- All the challenges will have a predetermined score.
- Please refrain from discussing strategy during the contest.
- Any case of code plagiarism will result in disqualification of both the users from the contest.
- Adobe's decision will be final

Minimum qualifications

- The candidate must be an Indian female studying in final or pre-final year in an Indian University.
- Programming experience in one or more of the following languages: C, C++, Java, JavaScript or Python.

Timelines

- Registrations starts from 8th March till 20th March
- Hackathon – 21st March (7 pm – 9 pm)
- Results – 31st March
- Second round of assessments – 1st April till 10th April
- Technology for Women Conference – 2020 (20th April) : Tentative
- Interviews – 21st April
- Offers to be made post interview process – 22nd April

Prizes

1st prize – iPhone 11
