

DRONACHARYA

College of Engineering

Khentawas, Farrukh Nagar, Gurugram, Haryana

Approved by: All India Council for Technical Education (AICTE), New Delhi

Affiliated to: Maharshi Dayanand University (MDU) Rohtak, Haryana

Name of the Subject: Computer Organization & Architecture

Faculty Name: Mr. Chirag Goyal

Innovation Practices: Collaborative Online Tools

Students Involved: 4th Semester

Collaborative online tools support dynamic, interactive, and team-based learning experiences. These tools allow students to simulate architectures, collaborate on complex coding projects, visualize hardware components, and engage in discussions, all while gaining practical, hands-on experience in the subject. These platforms foster a deeper understanding of COA concepts, prepare students for real-world applications, and promote teamwork and problem-solving skills.

These tools allow students to visualize and simulate complex architectural concepts, collaborate on real-world projects, and apply theoretical knowledge to practical challenges. These tools enhance engagement, improve understanding, and prepare students for careers in the tech industry by providing hands-on experience with industry-standard software and hardware.
