eSim Semester Long Internship Autumn
Register Here

What is eSim?

An open-source EDA tool for circuit design, simulation, analysis, and PCB design.

About the Internship

- Work on real-world projects in circuit design & simulation
- Get mentored by IIT Bombay researchers
- Learn open-source software development
- Contribute to national-level projects

Selection is through the Screening Tasks. Scan the QR code:

📅 **Duration:** One Semester (part-time, remote)

🎓 **Who can apply:** Students with interest in **Computer Science/AI-ML/Electronics/VLSI/ Open-Source Development**

Registration end date: 15 September 2025

🎓 **Certificate:** Internship Certificate from FOSSEE
