

# Frontend UI SDE

 Bangalore, India

## **Apply If You are**

Interested in architecting large scale frontend projects and frameworks using deep technologies like Functional Programming, FRP, Flux architecture etc.

Interested in understanding the systems internals of rendering, GPU, View compositing etc. to create stable and fast UI frameworks (Android, iOS and Web)

Passionate about unifying and developing reusable components/libraries using FP primitives

Obsessed about creating pixel perfect UI and crafting delightful experiences.

## **Batch: 2024**
