What would you say if you could become part of a team that breathes innovation and creates future-forward solutions that can revolutionize the Aerospace sector?

Airbus is proud to present you **'WonderHacks 1.0'** - a Hackathon for the **Women in Technology** that aims to provide an opportunity to all women out there who are passionate to build technology-led experiences for tomorrow.

We, at Airbus, encourage and enable women to advance their careers through a wide range of mentorship programs, leadership development and coaching. Take a step closer and explore the multitude of possibilities that lie ahead!
