CODE ELEVATE

A great opportunity for students interested in a career in software engineering to elevate their programming skills. You will have access to specifically selected learning pathways just for you through this program, including the courses designed by Amazon Web Services (AWS) and prestigious institutions like Duke University and University of Colorado Boulder, to help you enhance your technical and professional skills.

Eligibility Criteria

Students graduating in the year 2024 and 2025 only

Students currently pursuing an engineering degree course (B.E/B.Tech)

Top 3 students who complete learning journeys with highest post-assessment marks, will win a 1:1 mentoring session with a senior leader at Amazon.
