

STATATHON 2025

STATATHON 2025, a unique initiative by MoSPI, AICTE, and the Ministry of Education's Innovation Cell, encourages startups and student innovators to use data, statistics, and innovation for data-smart India.

Participants can submit solutions to five real-world challenges focused on:

- ➔ Automating large-scale data collection and validation
- ➔ Enhancing real-time data processing for government statistics
- ➔ Leveraging AI/ML for trend prediction and forecasting
- ➔ Improving citizen-centric statistical dashboards
- ➔ Integrating multiple datasets for socio-economic insights
