Cloud 20/20 Year11
Innovation's Own Universe

Registrations Open till Jan 31, 2019

Unisys Cloud 20/20 Year 11 has

Student Innovation Projects (SIP):
This contest aims to provide engineering students across the country with a platform to offer innovative ideas around disruptive technology trends. It is open to research students, post-graduates as well as pre-final and final year engineering students in Computer Science, Information Technology, and other related fields. Students can submit project ideas in broad technical areas as per the contest guidelines. These ideas will be evaluated by the Unisys Technical team, and based on the innovation/merit of the idea, selected for the next round, where students will work on their project idea and demonstrate it.

Participate and **Win**
