

WORLD'S FIRST SUSTAINABLE BLOCKCHAIN ECOSYSTEM

5ire - Hackathon

Application deadline: 2nd April, 2022

World's First Sustainable Blockchain Ecosystem. Hacking is building things that you always wanted to have but no one has built it yet. It's to come up with an amazing idea and work tirelessly on it. It is to fail, fail again and fail better. Try out new things and learn while doing that. It's to work together, collaborate and build things that are innovative. It is to be a better programmer.
