**SAVTRIBAI PHULE PUNE UNIVERSITY
NODAL AGENCY**

STATE ELIGIBILITY TEST FOR ASSISTANT PROFESSOR

(As notified by University Grants Commission, New Delhi)
(Valid in the States of Maharashtra & Goa only)

SET Ref. No.: 0012/(SET-JUN 2019) Seat No.: 700801

Certified that **BHUTANI ANCHAL**
Son/Daughter of **BHUTANI ASHWANI** and
BHUTANI PREM LATA, has qualified the SET for eligibility for
Assistant Professor held on 23rd June 2019 in the subject English.

As per the information provided by the candidate, he/she had completed his/her Master's degree or equivalent examination at the time of applying for SET.

The date of eligibility for Assistant Professor is the date of declaration of SET result, i.e., 11/10/2019, OR the date of completion of Master's degree or equivalent examination with required percentage of marks within two years from the date of declaration of SET result, i.e., by 10/10/2021, whichever is later.

This is an electronic certificate only, its authenticity and category in which the candidate had appeared should be verified from the Nodal Agency by the Institution/Appointing Authority. This electronic certificate can also be verified by scanning Bar code printed on the electronic certificate.

Validity of this electronic certificate is forever.

**MEMBER SECRETARY
STEERING COMMITTEE, SET**

Date of Issue : 07/11/2019

**CHAIRMAN
STEERING COMMITTEE, SET**

Note : The Nodal Agency has issued the electronic certificate on the basis of information provided by the candidate in his/her Application Form. The appointing authority should verify the original records/certificates of the candidate while considering him/her for appointment, as the Nodal Agency is not responsible for the same. The candidate must fulfil the minimum eligibility conditions for SET as laid down in the notification for SET.

CHITKARA UNIVERSITY

CITATION

The advent of Cloud computing in the area of information technology enables the cloud of the end users. It is a model in which on demand network access is also provided to the users by using the pool of shared resources (servers, applications, storage and networks). All these services are provided to the end users with the minimal interference of service provider and effort of management. One of the cloud service model in which consumers need not to manage and control the hidden cloud infrastructure but on the other hand has a full control over the applied applications is IaaS (Infrastructure as-a-service). All the data, information, and security are provided through internet, so security becomes an integral part. There are many security algorithms and mechanisms available all today but inherent some of the advantages in them. Traditional authentication based security method helps to achieve the user's identity but this, because user can be manipulated to gain the access of the data in based authentication is one of the method that helps to ensure the authenticity of the user and its (Global Positioning System) is used to get the geographical location of the users and it end users are able to use the resources and services that are present in that location to meet the protocol. Once the location is authenticated AES (Advanced Standard) algorithm is used for secure communication for the transmission of data in or the internet. The work aims in providing the methodology in which IaaS implemented with location based authentication of the user in cloud computing.

**Sub: Registration as a Full Time Research Scholar for Ph.D Programme in
the Dept. of Mining Engineering**

This has reference to your application dated 06.10.2017 for Full Time Research Scholar. I am directed to inform you that on the basis of recommendation of DSC meeting held on 06.10.2017, the Chairman, Senate approved your Ph.D Registration as a Full Time Research Scholar as recommended by DSC in the Discipline of Mining Engineering w.e.f. 01.08.2017 subject to ratification in the next Senate Meeting as per details given below:

1. Topic of Research: "Investigations on Performance of Tunnel Boring Machines in Different Geological Conditions and Development of A Selection Methodology for Rapid Tunnelling"
2. Name of Guide(s): Prof V M S R Murthy, Professor, Dept. of ME
Co-guide Dr Rakesh Kumar Assistant Professor, Mining Engg.
3. You have to clear the following Postgraduate courses with minimum 'C' Grade within three semesters i.e. Monsoon, Winter and Summer, from the date of confirmation of registration. According to Rule 3(d) (General Guidelines), if you fail to obtain minimum of 'C' grade in any course within the stipulated period your registration will stand cancelled.
4. You have to submit half yearly progress report through your guide to the office of the undersigned regularly.
5. You will be required to pay tuition and other requisite fees from time to time.
6. After registration, you are required to submit the copy of registration form and fee receipt to Academic Section through your Guide/HOD.

NATIONAL ELIGIBILITY TEST FOR LECTURESHIP

UGC Ref. No.: 38266/(NET-DEC. 2012)

Roll No.: 72870791

Certified that **HANSRAJ**

Son/Daughter of **MOHAN LAL YADAV**

and **PYARI DEVI**

has qualified

the UGC-NET for eligibility for lectureship held on 30-12-2012

in the subject **COMPUTER SCIENCE AND APPLICATIONS**

The date of qualifying NET is **25th March, 2013**, which is also the date of declaration of the result.

This is an electronic certificate only and its authenticity should be verified from the UGC by the employer through www.ugcnetonline.in. This electronic certificate can also be verified by scanning QR Bar Code printed on the electronic certificate.

Validity of the electronic certificate is forever.

Surender Singh

Head
NET Bureau

Date of Issue: **03-07-2013**

Note: a) UGC has issued the electronic certificate on the basis of information provided by the candidate in his/her Application Form. The appointing authority should verify the original records/certificates of the candidate while considering him/her for appointment, as the Commission is not responsible for the same. The candidate must fulfil the minimum eligibility conditions for NET within two years from the date of declaration of UGC-NET result.

b) Wherever PWD is shown in the UGC Ref. No., the recruitment body should see the relevant documents of disabilities.

Anil Kumar
Senior Director, NTA UGC NET

Subject wise category wise cut-off for Assistant Professor only and Junior Research Fellowship (JRF) & Assistant Professor Both are available on website

- The electronically generated Score Card is the official result declared by NTA and does not require any signature.
- Candidate's particulars including Category and Person with Disability (PwD) have been indicated as mentioned by the candidate in the online Application Form.
- Subject wise Cut-Off is based on the Percentage of Marks Obtained.
- Those qualified for Assistant Professor will not be considered for award of JRF. Candidates who qualify the Test for eligibility for Assistant Professor will be governed by the rules and regulations for recruitment of Assistant Professor of the concerned universities/colleges/State governments, as the case may be.
- The slots of JRFs of both UGC-NET December 2020 and June 2021 cycles have been merged, while the methodology for Subject wise cut-off/Category wise cut-off of JRFs remains unchanged.
- The candidates who qualify for the award of Junior Research Fellowship are eligible to pursue research in the subject of their post-graduation or an allied subject and are also eligible for Assistant Professor. The universities, institutions, IITs and other national organizations may select the JRF awardees for full time research work in accordance with the procedure prescribed by them.
- Economically Weaker Section (EWS), Scheduled Caste (SC), Scheduled Tribe (ST), Person with Disability (PwD), Transgender / Other Backward Classes - Non creamy layer (OBC - NCL), as per the central list of Other Backward Classes available on National Commission for Backward Classes (NCBC), Government of India website. Where applicable, candidate will be given such special concessions as may be decided by the UGC.
- Candidates qualifying for the award of Junior Research Fellowship will be eligible to receive fellowship of UGC under various schemes, subject to their finding placement in universities or institutions. The validity period of the offer is three years w.e.f. the date of issue of JRF Award Letter. However, in case the candidates have already earned M. Phil. / Ph.D., the date of commencement of fellowship shall be from the date of declaration of NET result or date of their joining, whichever is later.
- The National Testing Agency shall not be responsible for any printing error in the publication. While preparing the scores due care has been taken. However, any inadvertent error cannot be ruled out. The NTA reserves the right to rectify any error at a later stage.
- No separate information letter shall be issued.

CHITKARA UNIVERSITY

CITATION

The approach of Cloud computing in the area of information technology satisfies the need of the end users. It is a model in which on demand network access is also provided to the users by using the pool of shared resources (services, applications, storage and networks). All these services are provided to the end users with the minimal interference of service provider and effort of management. One of the cloud service model in which consumers need not to manage and control the hidden cloud infrastructure but on the other hand has a full control over the deployed applications is IaaS (Infrastructure as-a-service). All the data, information and accessibility are provided through internet, so security becomes an integral part. There are many security algorithms and mechanisms available till today but inherent some of the advantages in them. Traditional authentication based security method helps to achieve the user's identity but fails, because user can be manipulated to gain the access of the data. Location based authentication is one of the method that helps to ensure the authenticity of the user. GPS (Global Positioning System) is used to get the geographical location of the users and mobile end users are able to use the resources and services that are present in that location to meet the protocols. Once the location is authenticated AES (Advanced Encryption Standard) algorithm is used for secure communication for the transference of data over the internet. The work aims in providing the methodology in which IaaS is implemented with location based authentication of the user in cloud computing.

CHITKARA UNIVERSITY

CITATION

The approach of cloud computing in the area of information technology satisfies the need of the end users. It is a model in which on demand network access is also provided to the users by using the pool of shared resources (services, applications, storage and networks). All these services are provided to the end users with the minimal interference of service provider and effort of management. One of the cloud service model in which consumers need not to manage and control the hidden cloud infrastructure but on the other hand has a full control over the deployed applications is IaaS (Infrastructure as-a-service). All the data, information and accessibility are provided through internet, so security becomes an integral part. There are many security algorithms and mechanisms available till today but inherent some of the advantages in them. Traditional authentication based security method helps to achieve the user's identity but fails, because user can be manipulated to gain the access of the data. Location based authentication is one of the method that helps to ensure the authenticity of the user. GPS (Global Positioning System) is used to get the geographical location of the users and end users are able to use the resources and services that are present in that location to meet the protocol. Once the location is authenticated AES (Advanced Encryption Standard) algorithm is used for secure communication for the transference of data in the internet. The work aims in providing the methodology in which IaaS is implemented with location based authentication of the user in cloud computing.

RESEARCH PORTFOLIO

Ph. D. Overview

1. Research Topic & Guide:

-Topic: PROTOCOL STEGANOGRAPHY IN TCP/IP WITH PERFORMANCE ENHANCEMENT BY SPLITTING SPD USED IN IPSEC OF IPv6
(Enrollment ID/Reference Number: NIMSUR/Reg./Ph.D./2010/1504/10/257)

-Guide: Prof. (Dr.) B.M.K. Prasad

2. Brief about University:

-University Name: NIMS University, Jaipur, Rajasthan

-Description: NIMS UNIVERSITY, JAIPUR, established under THE NIMS UNIVERSITY ACT, 2008, enacted by the Government of Rajasthan, is duly recognized by UGC. Nims University Rajasthan, Jaipur is among the nation's few technical universities, and its programmes in Medicine, Dentistry, Pharmacy, Business Management, Engineering, Nursing and Human sciences are well established and much sought after. With this broad range of educational and professional training opportunities, student diversity present a rich variety of cultural background and enhance integration in real terms. Starting from a modest beginning from National Institute of Medical Sciences to the establishment of Nims University in 2008 speaks volumes of dedication, devotion and sacrifice on the part of the founder, Prof. (Dr.) Balvir S. Tomar, Chancellor.

3. Brief about Research & Future Scope:

The research work will revolve around the following objectives:

• **Objective 1:**

Undertake a survey on the implementations studied to determine how these utilize network protocols to create covert channels. A special attention will be paid to the information given by the various author(s) of each implementation in terms of probability of detection.

• **Objective 2:**

Develop a method to transmit the packets containing hidden or secret data over the network by using chaotic mixing and toral automorphism, thus making the process of packet transmission non detectable and more reliable.

• **Objective 3:**

Suggest a technique for the improvement of performance of the IPsec by splitting the Security Policy Database used for the implementation of IPsec and then an analysis of the effect of this split on the performance.

-Future Scope- The scope of research is

The main scope will be on the performance evaluation of IPsec based on which, Performance of data transmission using IPsec will be done.

4. Expected Duration of Completion: Sep-Dec 2012
